Please study the ramifications of the combined training of [REDACTED] pilots at the 4080th. [REDACTED] has given his tentative approval of the simultaneous training subject to security and higher political problems being acceptable. Please staff this problem immediately since we must approach the Air Force for additional training course within the next day or so in one event and/or take immediate steps to delay the arrival of the [REDACTED] pilots in the other event. Advise AD/OSA and D/FA as soon as the security position is determined.
